Better Water, Pure and Simple:

Upgrade your home's water quality with the Sapphire BC10P jumbo sediment filter. This easy-to-use filter ensures cleaner, clearer water for your whole house and protects your pipes from sediment buildup.

Pleated Filtration:

Our BC10P filter features pleated filtration technology, capturing dirt, sand, sediment, and rust particles down to 5 microns, ensuring your water is free from visible impurities.

Easy Installation:

With its user-friendly design, our filter allows for hassle-free installation and immediate improvement in water quality. Enjoy cleaner, fresher water without the complexity.

Versatile

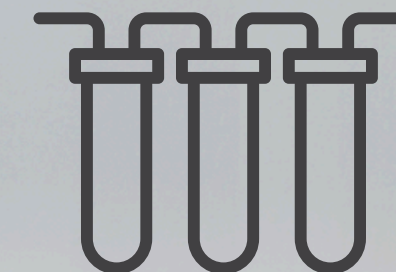

Engineered to fit seamlessly into our BH10W housing unit, our filter can be used alone or combined with others to customize your filtration needs and remove different contaminants from the water.

Compatibility:

FITS INSIDE:

SINGLE OR INLINE:

Tailored Filtration:

Whether used alone or stacked together, our BC10P filter offers tailored filtration solutions to meet your specific water quality requirements, providing peace of mind and simplicity in water filtration.
